

2020 4-H Mystery Chick Project

Incubation & Embryology - Poultry

HOW EGGCITING!

4-H youth with an interest in the poultry project and learning the life cycle of poultry are highly encouraged to participate in the 2020 4-H Mystery Chick Project!

Participating youth will have the option of completing the entire project through the growth of the hatched chicks or they may opt to only hatch the chicks and return them. Fertile hatching eggs will be supplied by the Orłowski Family, Matt Gogis and other breeders out of a variety of breeds from the their show quality NPIP certified flocks. Those completing the whole project will also be tasked with figuring out which breed and what color variety their chicks are.

Before Fonda Fair entries are due, we will be meeting with project participants to confirm their findings and identify their birds. Youth are highly encouraged to show their birds at the Fonda Fair!

To participate please complete the attached registration form and return to the 4-H Office with payment by Tuesday, February 18th.
