One Great Idea

*Cornell Cooperative Extension in Fulton & Montgomery Counties
provides equal program and employment opportunities.*

Cornell Cooperative Extension Regional Teams

Cooperative Extension regional agriculture programs are the result of unique partnerships that provide opportunities to producers beyond their individual counties' borders.

Local needs provide the focus for program participation by producers in their communities.

Multi-county sharing, educator exchanges, and regional training programs, together with Cornell University connections, expand opportunities for agricultural economic vitality in the region.

Capital Area Agriculture and Horticulture Team

provides research based information focused on commercial production and marketing of a broad variety of agricultural and horticultural products

Sandy Buxton specializes in Farm Business Management with responsibilities in the areas of management, developing financial statements for planning, taxes and evaluation as well as economic analysis.

518-746-2560 sab22@cornell.edu

Aaron Gabriel specializes in field crops, nutrient management, insect and weed management, soil testing and interpretation and crop disease.

518-746-2560 adg12@cornell.edu

Tom Gallagher is a livestock educator covering beef cattle, sheep, pigs, goats, chickens and other livestock production questions. He also has expertise in developing production systems and marketing venues.

518-765-3500 tjg3@cornell.edu

Steve Hadcock specializes in assisting new enterprises and alternative crop producers to learn the ins and outs of regulations, find marketing venues and grow their businesses.

518-828-3346 seh11@cornell.edu

Chuck Schmitt provides support to the greenhouse, nursery and landscape industries, including Certified Nursery and Landscape Professional Training, pesticide applicator certification and Integrated Pest Management diagnostic workshops, and marketing venues.

518-765-3500 [cgs34@cornell.edu](mailto:cds34@cornell.edu)

Capital District Vegetable and Small Fruit Program

provides research based information focused on commercial production and marketing of specifically vegetable and small fruit crops

Chuck Bornt specializes in vine crops, sweet corn, potatoes, tomatoes and reduced tillage.

518-272-4210 x125 (office), 518-859-6213 (cell) cdb13@cornell.edu
